! WARNING

- * Recommended for use with a sissy bar/backrest and luggage rack combination which is permanently attached to the motorcycle. Mount the bag at this location **ONLY**.
- * Do not exceed the manufacturer's recommended load capacity of the luggage rack or motorcycle.
- * Consult owner's manual for tire inflation pressures and gross axle weight rating. Failure to follow recommended weight loading capacities may affect handling. This may result in injury or property damage.
- * Secure the bag to the vehicle so the bag will not shift during operation.
- * Verify that straps do not obstruct exhaust system, reflectors, turn signals, or tail lamp.
- * Allowing straps to hang loose may cause damage to packs and/or painted finishes. Hanging straps may become entangled in the wheel or drive chain or belt resulting in serious personal injury and/or property damage.

Installation Instructions For Single Mount Bags:

1. Separate the velcro strap(s) on the back side of the luggage. Lower the bag onto the luggage rack keeping straps on opposite sides of the Sissy Bar/Backrest (Fig.1)
2. Be sure the bag is centered and sitting firmly on the luggage rack. Tighten the velcro straps around the backrest. Fasten velcro straps to secure the bag.

Note: An additional strap assembly has been provided to aid in

Fig. 1

Garment Bag only

- 2a. Connect straps to sides of bag - Hook to one D-ring (Fig. 8). Go under the luggage rack. Secure to D-ring on opposite side. Pull tight. (Fig.2)
Connect straps to front of bag - Hook to one D-ring (Fig.8). Position down front of bag and under the luggage rack where accessible and up the other side to opposite D-ring. Pull tight. (Fig. 3)

Fig. 2

Fig. 3

3. This will complete installation of the Garment Bag and Roll Bag. For completing the installation of the Main, Overnight, and Commuter Bags continue to Step 4.

4. Locate the zippers on either side at the bottom of the bag. (Commuter Bag buckles are not contained within a zippered pocket.) Unzip and pull out the two short straps with buckles (see Fig. 4). Locate the mounting strap kit included with the bag. Connect the long mounting straps to the short straps that are attached to the bag. These straps use side release buckles to offer quick attachment and release.

Fig. 4

5. Loop the long mounting straps (on both sides of the bag) around the directional indicator bar (or similar sturdy mounting area), and connect the final side release buckles (see Fig. 5). Be sure the buckle has "snapped" into place, and the connection is secure.

Fig. 5

6. Pull the slack out of the loose end of the strap to tighten. Excess strap material should be knotted or removed and end sealed to prevent unravelling. Ensure that your bag is securely mounted.

7. Periodically check each bag to ensure attachment is secure as straps may loosen during riding.

WARNING

Allowing straps to hang loose may cause damage to packs and/or painted finishes. Hanging straps may become entangled in the wheel or drive chain or belt resulting in serious personal injury and/or property damage.

Installation Instructions For Adding Additional Luggage Components:

NOTE: This luggage is designed to be stacked with the same or other components of the Motorcycle luggage system. When stacking luggage, the base bag must be either the Main Bag (MLS-MB) or Overnight Bag (MLS-OB).

1. Secure Main Bag or Overnight Bag to luggage rack or pillion as previously instructed.
2. Locate 4 piece connecting strap kit included with every bag (Fig. 6).
3. Connect clip on one end of connecting strap to D-ring on base bag (Fig. 7). Connect opposite connecting strap clip to adjacent D-ring on upper bag (Fig 8). Repeat until all (4) straps are installed. (Two (2) straps in front and two (2) straps on the back.)
4. Tighten all four straps until luggage is secured tightly together. (Fig. 9).

Various Bag Features:

Rain cover - provided with each of the bags in this luggage system. To apply, place cover over the bag and pull shock cord tight (Fig. 10)

Note: Rain cover for Main Bag (MLS-MB) is designed for use on multiple stacked bags. Any excess material should be tucked inside of rain cover to prevent wind damage to cover.

Fig. 10

Side Mounted Net Pockets

! WARNING

When using one or more of the side pockets, make certain that the load is properly balanced on both sides of the bag to prevent unwanted shifting during vehicle operation.

Sides of the Main Bag are expandable to allow extra storage. To use, unzip and pull out the side panel. Repositioning of the bag may be necessary to balance the load.
