

DESIGNED BY A RIDER

Dowco's Fastrax Sport and Adventure Luggage is claimed to work with virtually any sportbike model and includes clear electronics storage areas; hydration pack storage; lockable, waterproof zippers; sewn-in rain hoods; and security cables. The luggage series consists of a tankbag (\$120), tailpack (\$110) and saddlebags (\$170), and is constructed from 1680-denier polyester with nine accent colors available (including pink!). For more information or to find a dealer, visit www.dowcopowersports.com or call (800) 558-7755.

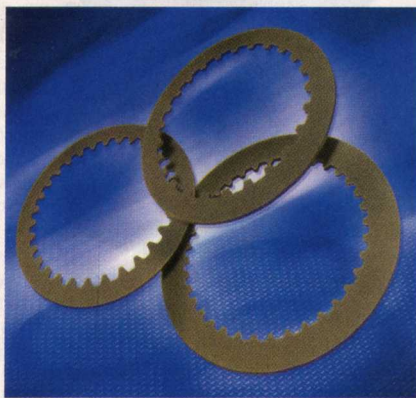

NEW HOOPS

These new VSTAR forged-aluminum wheels from Carrozzeria feature one-piece construction and are claimed to be stronger and 15 to 20 percent lighter than the company's previous offerings. The wheels come complete with bearings, spacers and a cush drive; are DOT, JWL and TUV approved; and are available in black, blue, clear, gold, red and polished finishes. Prices range from \$1640 to \$1840 per set. For more information, visit www.forged-wheel.com or call (310) 719-2271.

WHAT SIGN ARE YOU?

The new SR-i500SW alarm from Scorpione includes an impact-resistant, waterproof controller that combines remote and FM paging capabilities. Standard features of the \$399 alarm include a half-mile range, a built-in accelerometer, an integrated 120dB siren, a battery backup system and a perimeter sensor. An optional disable/anti-hijack system is also available, and factory-style connector kits are included for easy installation in many models. For more information, visit www.scorpionealarms.com or call (800) 428-0440.

WORD OF THE DAY

These "cryodized" aluminum clutch plates from Barnett have been treated at -300 degrees F, which is claimed to extend clutch-plate life and reduce the chance of breakage and oil contamination. The plates are then hard anodized for added durability. Being aluminum, the cryodized plates are about one-third the weight of steel plates for less rotating mass in the clutch assembly. For more information, visit www.barnettclutches.com or call (805) 642-9435.

ESPECIALLY FOR SPECIAL SURFACES

S100's new Special Surfaces Cleaner is designed for streak-free cleaning of plastic surfaces such as helmets, face shields, fairings and windshields, and is safe for polycarbonate and acrylic materials. For more information, visit your local dealer or log on to www.s100.com.
