

## Scooter Messenger Bag

Congratulations on the purchase of your new Fastrax Messenger Bag. This bag was designed and constructed to cater to the needs of an active person. Please read and understand these instructions completely before installation to avoid possible injury to yourself, or damage to the accessory or vehicle. Read all Cautions, Warnings and Notes within installation instructions and on bags. If you are unsure about securing the bag, please contact us at 1-800-558-7755 Monday through Friday 8:00 am - 4:30 pm CST

### Features

- Universal scooter mounting strap
- Rugged ballistic polyester material
- Rubberized fabric sections for durability and anti slip
- Padded laptop computer compartment
- Anti-wrinkle document protecting pocket
- Easily accessible front and side pockets

## WARNING

**Failure to comply can result in serious personal injury and/or property damage.**

- Do not exceed the maximum load for your rack.
- Secure the bag to the vehicle so the bag will not shift during operation.
- Straps should not obstruct exhaust system, turn signals, or tail lamp.
- Do not allow any loose hanging straps, as they may become entangled in the wheel or chain.
- Overloading the Bag will result in a high center of gravity causing the bike to become top heavy and susceptible to unexpected tipping while negotiating high speed turns.

### Scooter attachment

To temporarily mount the bag on a scooter or moped, position the shoulder strap so that it wraps around the front of the seat securely and pull the elastic strap back around the rack or tail section. Adjust the shoulder strap length so that the bag is secured firmly and will not shift while riding. An additional, longer elastic strap is included. The strap attachment points can be accessed behind the plastic sheet in the rear zippered document pocket.
